

04 – Handover Pack

Runbook

- The application is managed within the organization's Microsoft environment
- Excel serves as the single source of truth and should not be structurally modified
- Power BI dashboards are configured for scheduled refresh

Admin Guide

- User access is granted or revoked through Microsoft 365 permissions
- Any data corrections must preserve table structure to avoid breaking reports

Credentials & Access

- No standalone credentials required
- Access is governed entirely through organizational accounts

Support & Maintenance

- **Post-Launch Warranty:** 30-day bug-fix period
- **Ongoing Maintenance:** Optional support agreement for enhancements and long-term maintenance
